1. INTRODUCTION

TABLE OF UNITY is a faith-driven, non-profit organization founded by a group of passionate individuals inspired by the work and legacy of *TABLE OF UNITY*. As former members of that compassionate movement, we recognized that the needs in our community extend beyond food relief — requiring broader, sustainable solutions to restore dignity and create lasting change.

With this vision, TABLE OF UNITY was established as an independent initiative dedicated to uplifting lives through hands-on community support, skill-building, and sustainable development. We address both immediate humanitarian needs and long-term empowerment, focusing on practical help, home restoration, and youth involvement.

While firmly rooted in our non-profit mission, we are also open to business collaborations — contracting our services for construction, maintenance, and small-scale projects. This approach not only provides employment opportunities for local youth but also sustains our programs financially, ensuring we can serve without depending solely on donations.

To be a beacon of hope and unity in the Alabama community and beyond by providing sustainable support, restoring dignity, and promoting spiritual and social development.

- To assist the vulnerable and underprivileged through community-based programs, food relief, home repairs, and empowerment initiatives.
- To create sustainable opportunities through fundraising, construction contracts, and partnerships, enabling us to serve without financial dependency.

4. OUR STORY

Born out of a deep desire to do more, TABLE OF UNITY was formed by dedicated youth who previously served under Die Brood Is Hier. Witnessing the pressing needs within their own Alabama community, the founding members came together to establish a movement that would extend beyond food relief — restoring homes, uplifting families, and equipping people with skills to create lasting transformation.

5. OUR VALUE

UNITY

We believe that healing begins with standing together as a community.

COMPASSION
